### **About the Project**

This Holiday work is part of the **\$5.3M Oak Park Drainage Upgrades** joint infrastructure project with the City of New Orleans' Department of Public Works and Sewerage and Water Board of New Orleans.

Once complete, residents will experience an overall improved quality of life as the project will improve subsurface drainage capacity between local streets and trunk lines and install green infrastructure such as retention/detention basins and bioswales. This work is part of the FEMA funded Hazard Mitigation Grant Program (HMGP)'s Leveraged Gray / Green Infrastructure projects and is scheduled to be completed in Fall 2023.
